

2023-2024 All Shore Orchestra **Virtual Audition Process**

STEP 1

Register for the audition and pay the \$25 fee here: www.allshoreorchestra.com/student-registration
***Your submission will not count unless you have registered and paid for the audition.

STEP 2

Enroll in an age-appropriate audition room. Enrollment links will be provided upon submitting audition registration.

STEP 3

Download and practice instrument-specific audition material.

STEP 4

Prepare to record your audition material on a home device. Appropriate recording options include:

- Smartphone
- Webcam
- Digital camcorder
- Laptop camera with a quality microphone
- Ask a sponsoring teacher to assist with recording your audition (if necessary)

NOTE: While decent video quality is appreciated, the quality of the audio is paramount to a fair judging process.

STEP 5

Perform and record your scales and solos SEPARATELY. Both scales should be on a single recording and both solos on another, single recording.

IMPORTANT:

- Each audition recording must be done **IN ONE TAKE**. We recognize that most students will want to record several times and submit their favorite version of the audition. While this is allowed, please remember that several recordings **CANNOT** be combined for a final product.
- Any audition videos deemed to have been edited **WILL BE** disqualified, as determined by the audition judges and the ASO Board.
- After recording, please verify that your video can be heard clearly and adheres to all audition requirements listed above.

STEP 6

- a. Upload your scale recording and submit your "Scales" assignment.
- b. Upload your solo recording and submit your "Solos" assignment.

STEP 7

- a. Submit "Sightreading: Part 1" to receive your student code.
- b. Video record yourself performing a sightreading assignment on Sight Reading Factory.
- c. Upload your sightreading recording to "Sightreading: Part 2" and submit.
